GOVERNMENT ADVT'S.

PROPOSALS FOR SIDE-WHEEL

NAVY DEFARTMENT,
BURNAY OF CONSTRUCTION,
BURNAY OF CONSTRUCTION,
BURNAY OF CONSTRUCTION,
Workington, August 4, 1861.

IN CONFORMITY with the act of Congress
approved the 2d August, 1831, the Navy Department wil receive proposals for the construction and
equipment of twelve 8ide. Wheel Steamers.
The load draft of water not to exceed six feet
nine inches; to be armed with two rided gans, of
7,000 lbs. each, one at each end of the vessel; also,
with two 12-bounder howitzers; the complement to
be one handere persone, with provisions for sixty
days, to have two thousand gallons of water in
tanks, and to be provided with a condenser for distilling potable water. To be schooler-rigged, and
have a rudder at each end, properly protected by a
poet.

innas, and to be provided with a condenser for distilling putable water. To be schooner-rigged, and have a radder at each end, properly protected by a poet.

The Department desires to have the highest attainable speed, which must be stated in the offer, tegether with the ength of time it can be maintained, and the quantity of coal that can be carried in the bunkers for that speed, which should not be less than for eight days.

The proposal must be for the hull, spars, rigging, sails, and canvas work, boats, anchors, and cobles, tanks, casks, furniturs, cooking apparatus and attentials, steam machinery and spars work, with all the equipments for a ves el of war completed a dready in all respects for sea service, and ready to receive ber officers, man, armament, stores, provisions, and fuel for steam machinery.

The armament, stores, provisiona, and fuel will be farmished by the Government.

The specifications must fully describe the materials to be used, the method and size of finiteding the detail of the size, material, finish, kind, and arrangement of machinery, and of the various equipments included in the proposal.

The plane must be working drawings, from which the vasical and machinery can be built, showing the allot ments of space for accommodations, storerooms, magazine, and sufferous, disposition of the call, &c.

The boilers and engines to be below the deck—the main shalt may be above; the boiler pressure not to be less than thirty pounds per equire inch, and a surface condenser to be used; the paddle-wheel to be overhous.

Upon application to the commanda tof any navy yard the bidder can see the list of require entire the which to be overhous.

The bidders will state the least time within which have an armament for which they will arree to complete the vessel for sea and deliver her at such navy yard as at they may name, without extra cost to the Government. It must likewise be stated in the offer the total amount for which they will arree to complete the vessel for sea and plane; and the bid must be

p'ams; and the bid must be accompanied by names of guarantors that if awarded they will execute the contract.

The usual conditions of Government contracts will be observed. Payments to be made at four different intervals, as the work progresses, retaining one-fifth of the whole smount for minety days after the delivery of the vessel, to repeir any defects that may be discovered within that time in trial at sea. I is unders cood that in the contract a guarantee will be inserted of the fulliment of the condition of speed, fuel, satisfactory working of the machinery, e. with 5 forfeiture in case of failure.

The reputation of bidders as successful steamship builders will have due weight, and the proposal must state the name of the marine steam engine building establishment at which they intend the steam machinery to be made.

The Department reserves the right to accept the propositions made in conformity with the conditions prescribed which shall be considered most to the interest of the Government and combine the greatest number of advantages, and to reject any or all of them, at its option.

The specifications and plaus of parties not obtaining the contract can be withdrawn by them.

The Department will not consider itself under obligations to receive proposals after the fifth of September 1861.

GUNBOATS FOR THE WESTERN RIVERS.

QUARTERNASTER GENERAL'S OFFICE,

FOR THE CURE OF

DYSPEPSIA, INDIGESTION Weakness or Debility, Flatulency and Rauses Loss of Appetite, Nervousness, Liver Com-plaints, Bilious Fevers, and all Diseases

of the Stomach, Liver, and Bowels. AS A PREVENTIVE FOR FEVER AND AGUE THESE BITTERS ARE NOT EQUALLED.

V. T. & A. W. GREELEY, Proprietors, Bustos

THE OBJECT of all medicine is either to prevent disease, or to assist Nature in restoring the various organs of the body to a healthfu action, and that medicine is certainly the hest which will perform those offices thoroughly yet mildly, and without endangering the vital forces of the system, by whose normal condition alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or ex-citing the organs into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of a nervous energy more disastrous than though Nature had been left to take its own course.

Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its usefuluess is being generally acknowledged by the largely-increasing consumption in those sections where it is best known, and by the testi-mony of many eminent physicians, who have not only made trial of it, but continually prescribe the Bitters in those cases for which it is ecommended.

AGED PEOPLE, AND ALL WEAKLY

PERSONS, Consumptive patients, and others, whose constitutions have become impared by time, or en feebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best known

stimulant.
DELICATE LADIES Will derive great benefit from it. No unpleas-ant effect will ever result from taking the Bitters, if the directions are followed. For those vho suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weakess, the Bitters are not equalled.

As an agreeable stomachic, it is much admired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an attack of FEVER and AGUE, or DIARRHŒA. Of all the ills that afflict men and women, few are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Da. Gazzary, a specific has now been obtained. GREELEY'S BOURBON BITTERS take straight hold of the disease, and begin cure. Thousands of well-attested cases of

cures of Dyspepsia, Indigestion, and Fever and

Ague, even of the most desperate kind, are in the possession of the proprietors.

Not a few people, everywhere, co Not a few people, everywhere, complain of wakness or Deblity. This is the gentle hint of nature for a little help in the way of invigoration. The hint should not be neglected.

"A stitch in time saves nine." Get a supply of Gargeley's Bourson Birtens, take them regularly, and our word for it you will feel better, live mar 20—6m MYERS & MCGHAN, ly, and our word for it you will feel better, live longer, be stronger, and think and act with very much more satisfaction. The Bitters are a tonic, and of a nature pover before attained in any medicine. It will make the weak strong, the desponding hopeful, the sick well. For any complaint of the Stomach, Liver, or Bowels, there is nothing comparable with this medicine.

In America, the Liver is the best abused of all the organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly noperative. This need not be; on the con trary, it is quite unnecessary. A little common sense, and a sufficiency of GREELEY'S BOURSO BITTERS, will keep the Liver right, and make man a man, and woman, now miserable, quite happy. The Bitters regulate and strengther the Liver, no less than purify it.

The increase of Nervous Disorders, at the present day, is one of the most alarming indinations of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a phase of pervous dis ease, whatever it may be, that these Bitter will not act upon favorably, and in the mos efficient manner. All who are unfortunately afflicted with complaints of this nature, or with indigestion, or any diseases of the Stomach should not fail to make use of GREELET'S BOUR BON BITTERS.

Chills and Fever. In many portions of the United States, this terrible disease seizes its vic tims as naturally as water seeks its level. The system, in a particular condition, invites it. The right medicine to prevent and cure thi malady, we unhesitatingly say, is GREELEY'S BOURDON BITTERS. It breaks up the fever, drives it from the system, and will keep it at bay, if taken in accordance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the constitution. As an agreeable tonic, these Bitters

stitution. As an agreeause conc, these sitters have no equal:

Greeley's Bourbon Bitters are meeting a sale unparalleled in the history of popular medicines. In all diseases of the Stomach and Bowels they are a sovereign cure. The worst cases of Dyspepsia and Indigestion yield to the remarkable potency of the Bitters, which is as agreeable to the laste as it is speedy and unfailing in its good effects.

For sale by Drugsias and Grocers, were:
